## PROJECTS

### **GTU STUDENTS —**

The GTU STUDENTS project is an innovative web platform designed to empower Gujarat Technological University (GTU) students with a comprehensive set of academic resources and community-driven support. This project leverages modern technologies like Firebase, ReactJS, and Vite for seamless user experiences. It comprises a multifaceted approach, featuring a library of educational materials in PDF format, exam preparation tools, syllabus information, and real-time GTU updates through a telegram channel integration.
